

The HydroGuard® Single-Sump System combines the proven technology of a hydrostatically monitored double-wall tank with the advanced protection of a hydrostatically monitored double-wall tank sump. Continuous monitoring 24 hours a day, 7 days a week.

FEATURES

- Hydrostatically Monitored Double-Wall Tank Double-Wall Tank Sump
- Fiberglass Tank Top Mounted Couplings
- Watertight Sump Lid
- Enhanced HydroGuard® Limited Warranty

BENEFITS

- Continuous Monitoring 24/7
- Eliminates the Federal Regulation Requirement to Test Sumps Every 3 Years
- Corrosion Free UST Solution
- The Safety and Security that Comes With Our HydroGuard® Product is Now Available in a Single-Sump System

HydroGuard® is also available in a multi-sump system. Visit containmentsolutions.com for more information.

Our fiberglass storage tanks carry the Underwriters Laboratories listing for the United States and Canada.
