

LUBE CUBE®

Multi-Compartment Tanks

Multi-Compartment Tanks

Fiber Glass Systems offers multi-compartment tanks for the storage of new and used lubrication products. Multi-compartment Lube Cube® tanks from Fiber Glass Systems provide lower installation costs and better space utilization than multiple aboveground tanks.

Fiber Glass Systems compartment tanks provide a minimum floor space savings of 15% and cost savings of 20%-30% when compared to multiple tanks.

Multi-compartment tanks can be manufactured with up to 10 compartments and may store up to 20,000 gallons. Leak detection for these tanks will also require fewer electronic sensors compared to individual tanks. Fiber Glass Systems compartment tanks are UL-142 listed and meet NFPA 30 standards and can be custom designed to suit limited space requirements.

A complete selection of Fiber Glass Systems tank configurations are available nationwide. Our experienced sales staff is ready to assist you in selecting the tank best suited to fit your needs.

Features & Benefits:

- Up to 10 compartments in a single tank
- Up to 20,000 gallons per unit
- Lower in cost than individual units
- Lower insurance costs*
- UL-142 listed
- Meets NFPA 30 Standard
- Skid mounted for easy installation
- Moveable by forklift
- Lifting lugs
- Epoxy exterior coating

Options:

- Stainless-steel construction
- Interior coatings
- 7 gallon spill box
- Equipment packages

* Savings will vary by area, and are dependent on insurance carrier.

1,250 gallon, 4 compartment tank.
